Education

Indian Institute of Technology

Dual Degree (B.Tech & M.Tech), CGPA: 8.52/10

Jun 2018 – May 2023

Kharagpur

Technical Skills

Programming Languages

C++ • Java • Golang • Python
JavaScript • TypeScript

Markup/Query Languages

HTML5 • CSS3 • T-SQL • pgSQL

Frameworks & ORMs

Spring Boot • Gin • Node.js • Flask
jOOQ • Mongoose • Prisma • Gorm

Libraries

React.js • Jest • Joi • SuperTest • Colly

Databases

Redis • MongoDB • DynamoDB
Elasticsearch • SQLite • SQL Server
PostgreSQL • pgvector

Cloud

AWS S3 • EC2 • RDS • CloudWatch
Lambda • SNS • SQS • SES • ECS
Docker • IIS • Nginx • GitHub Actions
Azure CI/CD • Deployment Groups

Experience

Electronics Company

Software Engineer Intern

May 2020 – August 2020

City, State

- Developed a service to automatically perform a set of unit tests daily on a product in development in order to decrease time needed for team members to identify and fix bugs/issues.
- Incorporated scripts using Python and PowerShell to aggregate XML test results into an organized format and to load the latest build code onto the hardware, so that daily testing can be performed.
- Utilized Jenkins to provide a continuous integration service in order to automate the entire process of loading the latest build code and test files, running the tests, and generating a report of the results once per day.
- Explored ways to visualize and send a daily report of test results to team members using HTML, Javascript, and CSS.

Startup, Inc

Front End Developer Intern

May 2019 – August 2019

City, State

- Assisted in development of the front end of a mobile application for iOS/Android using Dart and the Flutter framework.
- Worked with Google Firebase to manage user inputted data across multiple platforms including web and mobile apps.
- Collaborated with team members using version control systems such as Git to organize modifications and assign tasks.
- Utilized Android Studio as a development environment in order to visualize the application in both iOS and Android.

Projects

Gym Reservation Bot | Python, Selenium, Google Cloud Console

January 2021

- Developed an automatic bot using Python and Google Cloud Console to register myself for a timeslot at my school gym.
- Implemented Selenium to create an instance of Chrome in order to interact with the correct elements of the web page.
- Created a Linux virtual machine to run on Google Cloud so that the program is able to run everyday from the cloud.
- Used Cron to schedule the program to execute automatically at 11 AM every morning so a reservation is made for me.

Ticket Price Calculator App | Java, Android Studio

November 2020

- Created an Android application using Java and Android Studio to calculate ticket prices for trips to museums in NYC.
- Processed user inputted information in the back-end of the app to return a subtotal price based on the tickets selected.
- Utilized the layout editor to create a UI for the application in order to allow different scenes to interact with each other.

Transaction Management GUI | Java, Eclipse, JavaFX

October 2020

- Designed a sample banking transaction system using Java to simulate the common functions of using a bank account.
- Used JavaFX to create a GUI that supports actions such as creating an account, deposit, withdraw, list all accounts, etc.
- Implemented object-oriented programming practices such as inheritance to create different account types and databases.

Coursework & Certifications

- Programming & Data Structures
- Algorithms 1
- Applied Algorithms and DS
- Probability and Statistics
- Data Analytics
- Machine Learning Foundations
- Deep Learning Foundations
- Winter School of AI & Robotics
- AlgoExpert algoexpert.io
- FrontendExpert algoexpert.io
- SystemsExpert algoexpert.io
- InfraExpert algoexpert.io

Leadership / Extracurricular

Fraternity

Spring 2020 – Present

President

University Name

- Achieved a 4 star fraternity ranking by the Office of Fraternity and Sorority Affairs (highest possible ranking).
- Managed executive board of 5 members and ran weekly meetings to oversee progress in essential parts of the chapter.
- Led chapter of 30+ members to work towards goals that improve and promote community service, academics, and unity.
